Vision, Mission and Policy of the Apator Group Integrated Management System

The Apator Group is an international group of manufacturers and distributors of measuring devices and systems, as well as suppliers of innovative solutions for the automation of the power, water, and gas networks. We introduce technologically advanced products and services in the field of electricity, water, heat and gas measurement onto the market, includingsmart solutions and systems for managing energy distribution networks. We develop the offer of solutions supporting the implementation of RES technologies and applicable in local energy management. We hold a high position on the European market in the sector of solutions for modern power generation.

With a view to full customer satisfaction, we design and manufacture and continuously improve integrated solutions for conscious and sustainable management of energy utilities and water consumption based on many years of experience, supported by the use of the latest achievements in the industry.

Vision of the Apator Group
We are the first choice in providing integrated solutions of the future for the energy and water sectors.

Mission of the Apator Group
We create technologies to support customers in the responsible and sustainable management of energy utilities and water.

Based on mission, vision and business strategy, the Apator Group implements the following Integrated Management System Policy.

„The aspiration of the Apator Group is to constantly become better in meeting the needs of our customers concerning products and integrated, intelligent measuring systems used for conscious and sustainable management of energy and water utilities in harmony with the principles of sustainable development, at the same time based on the requirements of international ISO standards relevant to us.

We conduct our activity in an optimum manner with respect to the environment and social aspects and in compliance with the legal provisions applicable to the Apator Group, external regulations, compliance principles, as well as the Code of Ethics of the Apator Group and our values"

The Integrated Management System Policy includes the following policies, which constitute its annexes:

- ✓ quality policy (ISO 9001:2015)
- ✓ environmental policy (ISO 14001:2015)
- ✓ health and safety policy (ISO 45001:2024)
- ✓ information security and cybersecurity policy (ISO 27001:2022)
- ✓ energy management policy (ISO 50001:2018).

The above policies are oriented towards:

- ✓ sustainable development of business and organisation,
- ✓ customer focus,
- ✓ functioning and efficiency of processes,
- ✓ caring for employees and providing a safe workplace,
- ✓ protecting the environment and optimising the use of natural resources,
- ✓ ensuring information security, cybersecurity and business continuity,
- ✓ continuous improvement of the system and processes,
- ✓ meeting legal requirements and compliance obligations.

The Integrated Management System Policy is known to all employees. They are responsible for adhering to it and applying it in their daily activities.
